

INDEX volumes 1-5 (1988-1992)

Note: In the indices which follow, references are to volume and page. Thus, 3.11-46 means “volume 1, pages 11 through 46.” Furthermore, the Author Index is the “master.” The entry ‘Make’ in the Subject Index will refer you to Baalbergen, for example. Multiple Inheritance for C++ in the Title Index, however, will refer you to the appropriate pages (not to Stroustrup).—PHS
