Acknowledgments

The authors work for VMware and INX. The opinions expressed here are the authors’ personal opinions. Content published was not read or approved in advance by VMware and does not necessarily reflect the views and opinions of VMware. This is the authors’ book, not a VMware book.

Thank you to Duncan Epping and Steve Kaplan for participating again on our third book in the USENIX Association Short Topics series. Thank you to Ben Lin, Raman Veeramraju, and Michael Haines for joining our team in creating this work and lending additional field experience.

A special thank you to Daniel Conde (co-author of Deploying the VMware Infrastructure) for his exhaustive review and various contributions, including the vision of VMware’s view of cloud computing. Thank you to Mahesh Rajani and David Baldwin for providing review and additional content. Thank you to Matthew Wood for providing editorial support, Bret Bechis for his help in legal approval, Izhar ul Haq for his cover design, and Sam Charrington for permitting use of “The Blind Men and the Cloud.”

Thank you to my management team (Michael “Dino” Cicciarelli; Matthew Stepanski; Enis Konuk; Carl Eschenbach; and Stephen Beck) for their support on this project. Thank you to Paul Maritz for his leadership and for providing the Foreword to this book.

Thank you to other contributors and reviewers of this work. These include Howie Xu, Catherine Fan, Aidan Dalgleish, Serge Maskalik, Patrick Chang, Bill Call, Amrinder Singh, Ananda Kammampati, Sanjay Patnaik, Deji Akomolafe, Phil Callahan, Chris Colotti, Daniel Crider, Dushyanth Nataraj, Hemma Prafallchandra (HyTrust), and others.

Thank you to Jane-Ellen Long for editorial support and to Jane-Ellen Long, Casey Henderson, and Jennifer Peterson for their production support and great ideas! Thank you to the USENIX Association for helping this work see the light of day and for supporting my participation as a member of the USENIX Board of Directors. Thank you to Dan Klein for allowing me to teach (since 2005) and for being a great friend. I encourage readers to experience USENIX and LISA personally to see why I believe they can influence your present and future in this field.

Thank you to the families and friends of the authors.

I dedicate this book to Amy, Catherine, Sofi, Lila, Mom, and Dad.

John Y. Arrasjid, VCDX
VMware Inc., Principal Architect, Cloud Services, and
USENIX Association, Board of Directors
