Privacy and Software Development

BELIEF

Privacy should be a **feature** of every tech stack.

CHALLENGE

Instead for most **developers**, privacy creates added complexity and friction.

Governance in the Stack
Proactive, dynamic, low
Friction part of SDLC

With an open-source standard for
Privacy-as-Code we can begin to solve this.
Let's see how...

What is Fides?

License Apache 2

License CC BY 4.0

An open-source description language and tools to add privacy to the **CI pipeline** and **runtime**.

fides benefits

- # Dev friendly language to describe data (privacy)
- # Integrate privacy checks in Git and CI
- # Build automated privacy tasks in runtime
- # Configurable data de-identification in analysis

fidesctl

Mgmt tool to validate fideslang and evaluate policy in CI pipeline.

fidesops

Data orchestration tool to automate privacy rights requests.

fideslang

Description language and taxonomy to describe privacy as code.

Benefits of Privacy-as-Code

3. Enforce

4. Audit

2. Evaluate

1. Declare

5. Map

Ex-ante

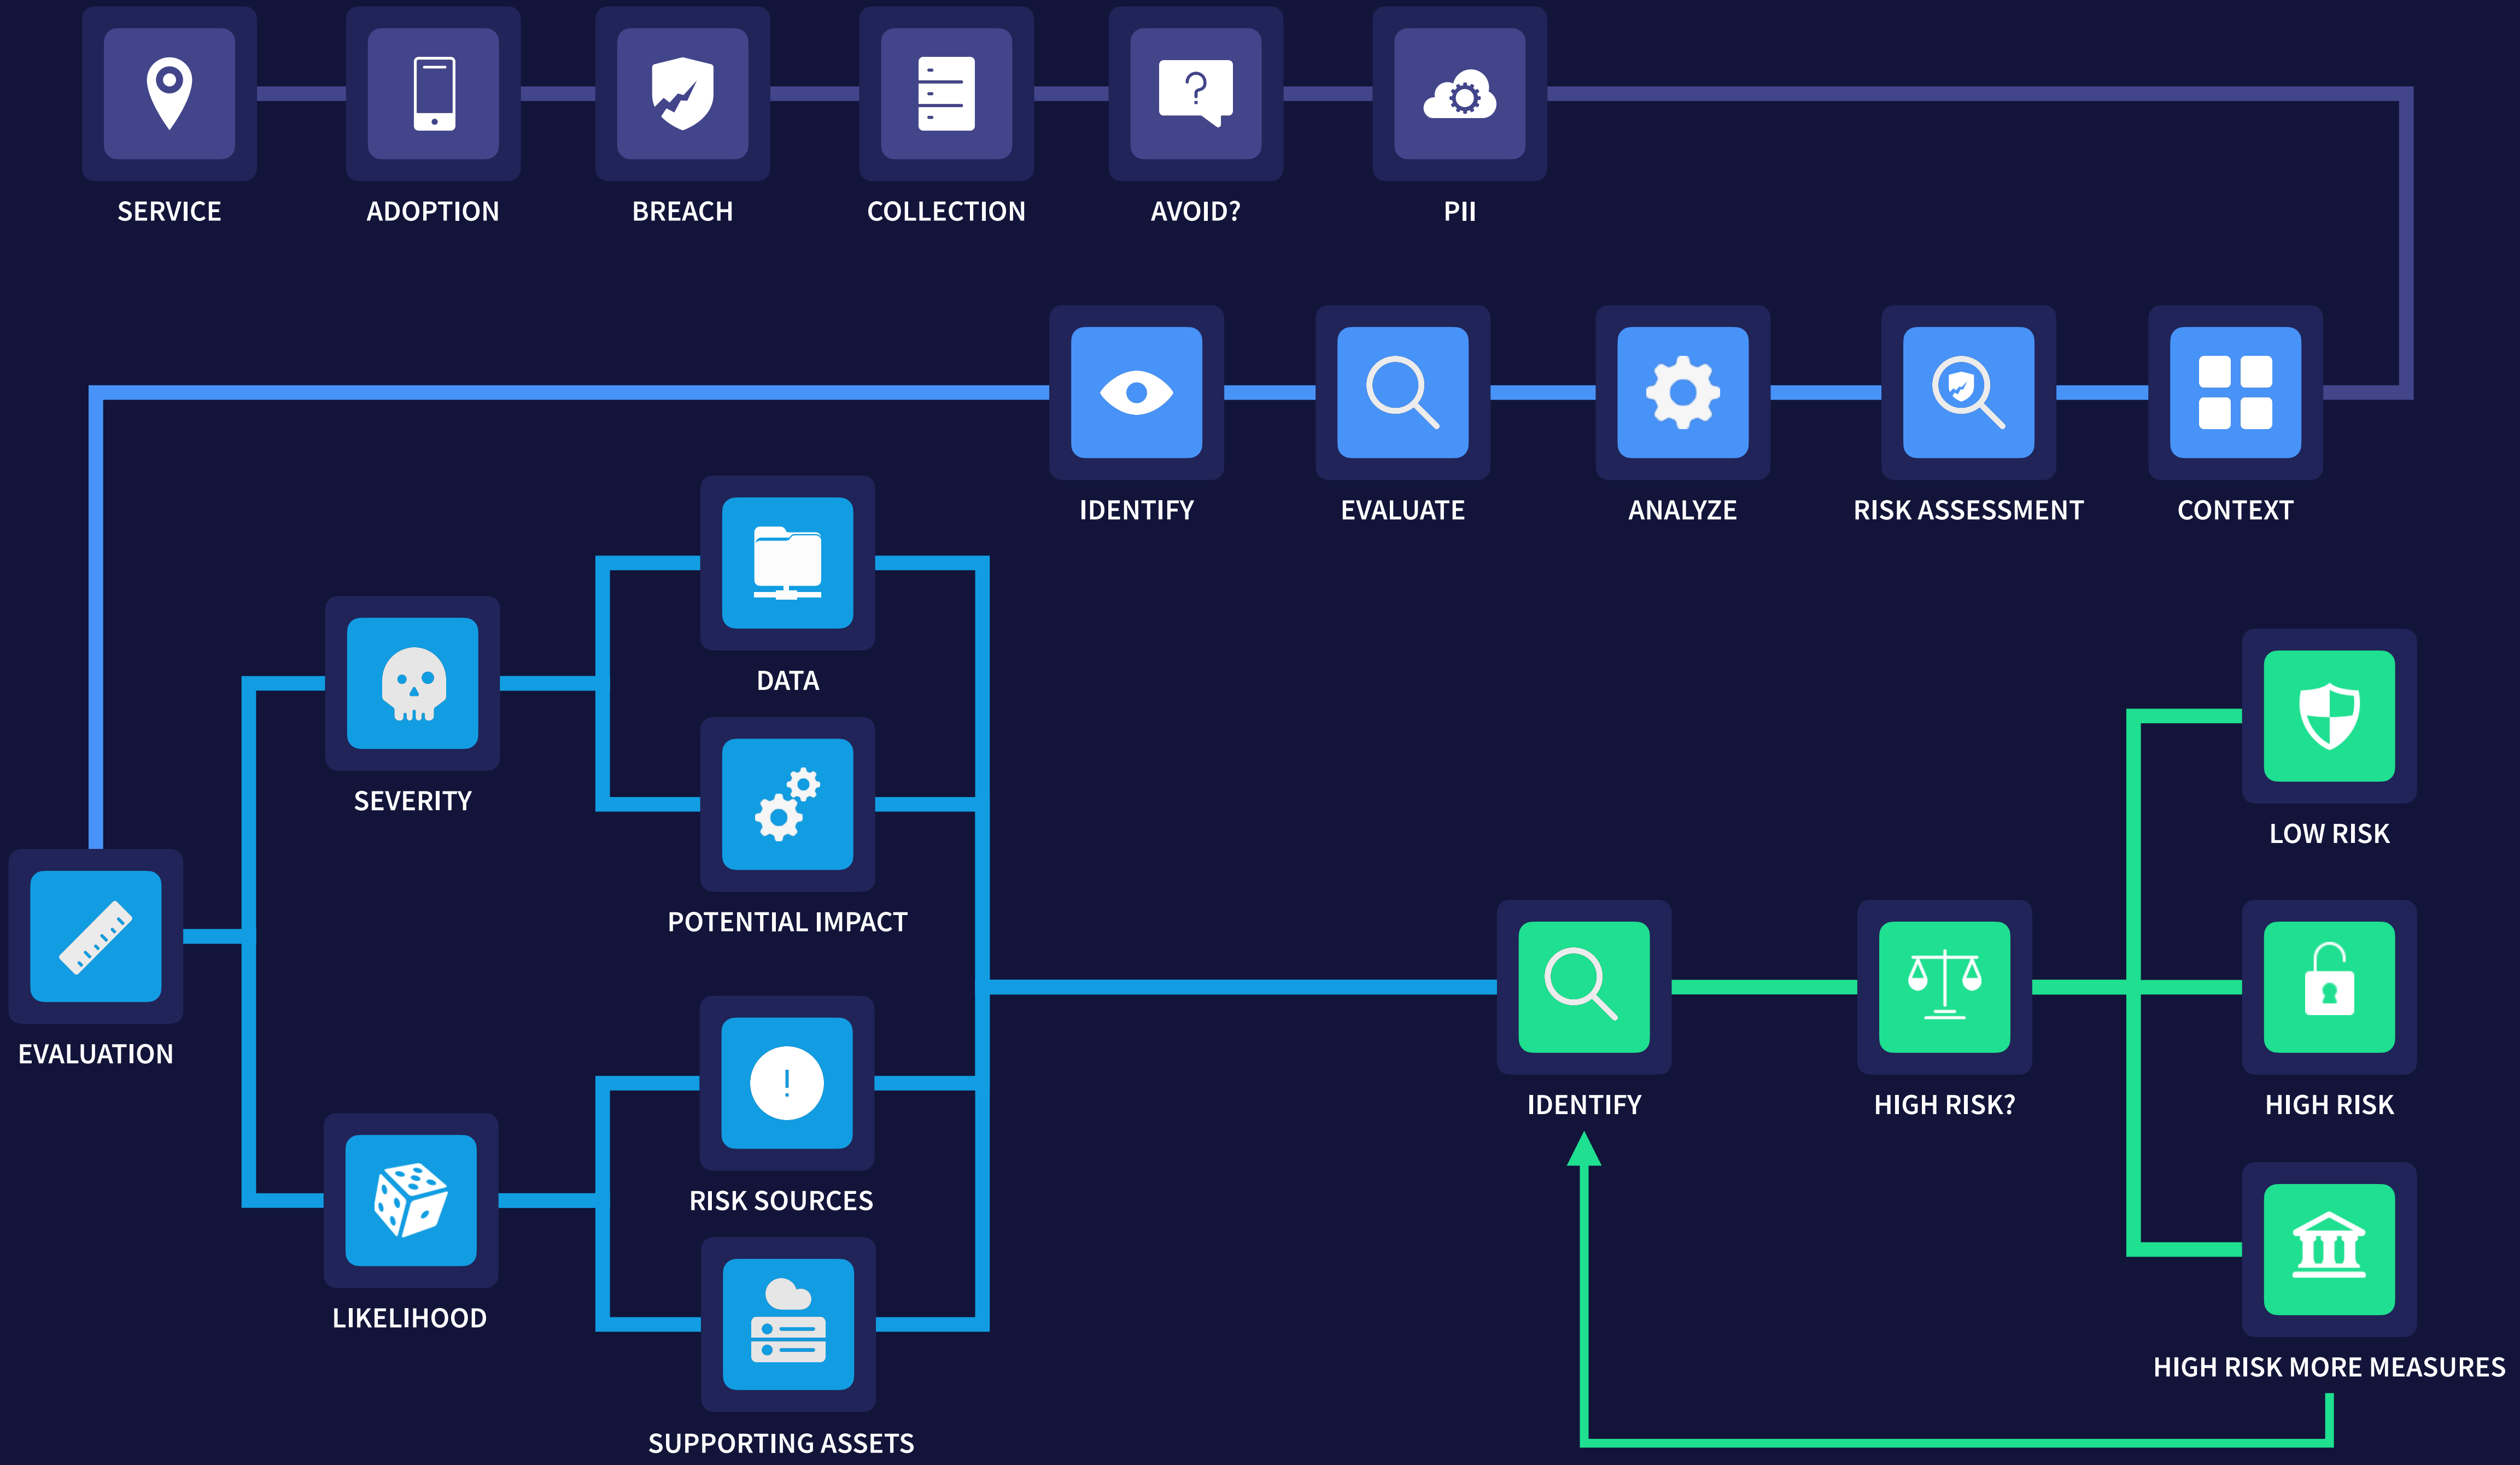

In SDLC

- # Risks mitigated in SDLC
- # Audit trail of SDLC
- # Consistent Data Inventory
- # Built-in Governance

PRIVACY CHECK IN CI

- # Describe our systems
- # “What, why, who and how”
- # Check our system against policies
- # Update our system to comply

Use Case 2

Programmatic Individual Rights

Data Subject Access Requests look like this...

Trinity Insurance Company
Attn: Privacy Policy Inquiry
One Commercial Plaza
Parsippany, NJ
07054
NJ
NJ

My reference: 2018-SI31196
Date: 2018-05-18

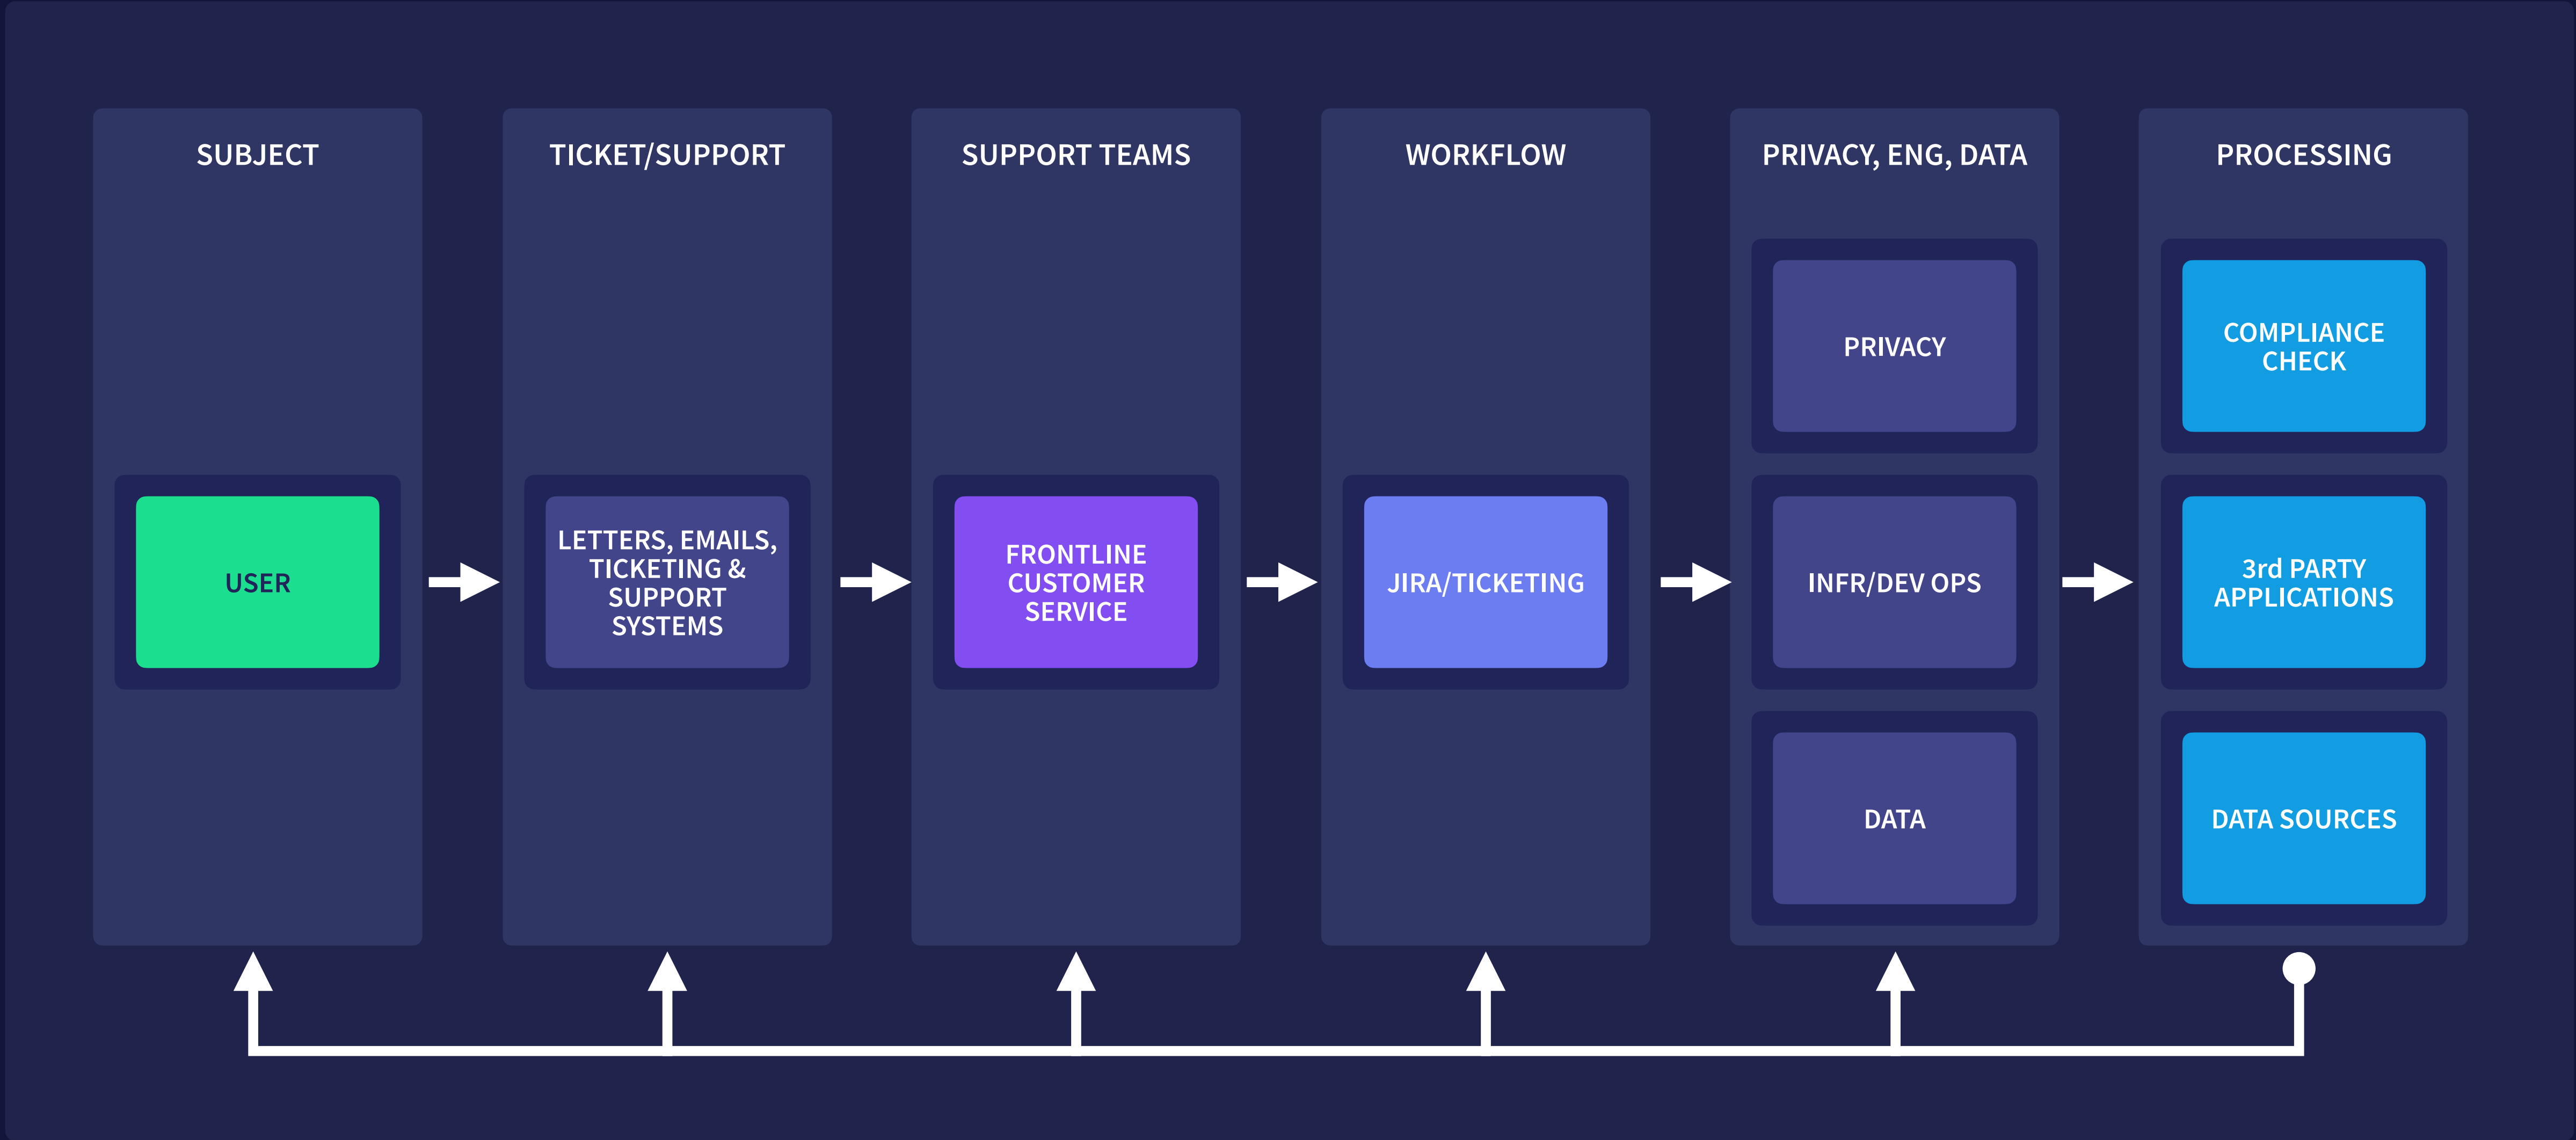

- Request to access to personal data according to Art. 15 GDPR

To Whom It May Concern:

I am hereby requesting access according to Article 15 GDPR. Please confirm whether or not you are processing personal data (as defined by Article 4(1) and (2) GDPR) concerning me.

In case you are, I am hereby requesting access to the following information pursuant to Article 15 GDPR:

- 1. all personal data concerning me that you have stored;
- 2. the purposes of the processing;
- 3. the categories of personal data concerned;
- 4. the recipients or categories of recipient to whom the personal data have been or will be disclosed;
- 5. where possible, the envisaged period for which the personal data will be stored, or, if

PRIVACY REQUEST IN RUNTIME

- # Construct a request policy
- # Retrieve all data for a user
- # Modify our request policy
- # Retrieve only contact data for user
